

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY
Concentrated Animal Feeding Operation General Permit

The Notice of Intent (NOI) for the facility listed below was received on 09/11/2019. The intent to discharge manure, sludge, and wastewater associated with an animal feeding operation activity into or adjacent to surface water in the state under the terms and conditions imposed by the Concentrated Animal Feeding Operation (CAFO) general permit TXG920000 is authorized. Your facility's authorization number is:

TXG921202

Coverage Effective: 02/24/2011

Authorization Type: TPDES Large CAFO

9000 Total Cattle (Beef)

TCEQ's CAFO general permit requires certain pollution prevention and control measures, possible monitoring and reporting, and periodic inspections. Among the conditions and requirements of this permit, you must have prepared and implemented a pollution prevention plan (PPP) that is tailored to your operation. As a facility authorized to discharge manure, sludge, and wastewater into or adjacent to surface water in the state under the CAFO general permit, all terms and conditions must be complied with to maintain coverage and avoid possible penalties.

Permitted Site Information:
