

Opportunity

Our current 125+ shareholders value their agricultural cooperative as an ideal opportunity to enjoy:

- Self-Sufficiency – Providing for their family's essential needs without having to rely on markets or the government for food, water, power or sanitation.
- Family – Providing children a more carefree rural lifestyle, where they can learn to work.
- Safety – Creating a place of safety for their families, from things either now or in the future, and
- Health – The health benefits of growing your own more-nutritious, non-GMO food untainted by pesticides and herbicides.

Benefits

A share in the Utah OSR Land Cooperative gives you these benefits:

1. A cooperative's equivalent of a title to 2 acres at the Riverbed Ranch off-grid community (it's called a "proprietary occupancy agreement").
2. At least 2.5 acre-feet of water rights (most are getting more),
3. A vote to elect board members of the cooperative to govern the co-op,
4. Opportunity for group purchases of products and services needed to build your homestead.
5. Opportunity to sell your products and services through the co-op,
6. First stab at any job openings within the cooperative, and
7. Opportunity to work with others on ag projects using the co-op's additional 500 or so acres.

"If you are interested in becoming self sufficient, this is a must see opportunity. Highly recommended." – visitor Ricky Brandon, Provo, Utah

Features

The Utah OSR Land Cooperative's Riverbed Ranch off-grid community will (or does) feature:

- High-speed satellite Internet through Starlink is available,
- A K-12 school, and other community services (listed below).
- A future BMX bicycle course and Tough Mudder course for kids and teens to burn off their extra energy,
- A greenbelt running up the middle of the community, with a hiking trail, honeybee-friendly trees, a road, and maybe someday, a creek.
- An RV and camping park where shareholders can live while building out their homesteads. Later, guests can stay and enjoy the community. This is under construction now.
- Co-op store for importing & exporting goods.

Additional Community Services

Similar to an industrial park, the Utah OSR Land Cooperative has set aside 45 acres for the following privately created, owned and operated services (which will likely all be staffed by local residents):

1. Academy of Self-Reliance higher-learning and research campus, including a ropes course.
2. The OSR K-12 campus,
3. Assisted Living / Retirement Home
4. Whole Health / Life Coach clinic
5. Child Rescue Home (“Fresh Start program”)
6. Young Mothers Home
7. Equine / Canine Therapy Barn

Anticipated Ways for Residents to Earn Income

- Selling your surplus produce through the co-op under the Riverbed Ranch brand.
- The Utah OSR Land Co-op itself, down the road, will hire a few employees.
- Construction workers can get hired to build homes at the Riverbed Ranch *right now*.
- Sub-cooperatives, like a dairy, courier service, c-store, etc. will need managers and workers.
- The seven support services listed above will all need to be staffed as well.
- Telecommuting – currently residents are using satellite Internet services.
- Providing goods and/or services through your home-based business.

“This project is meeting the American dream in it's true and original sense. Hard work, self sufficiency, good community, and reaping the harvest of your labor's” - visitor Cassidy Stewart, Bountiful, Utah

- Watch our [intro video](#) giving the backstory and progress of “Operation Self-Reliance”.
- Join the [Academy of Self-Reliance Facebook Group](#) where you can meet and share ideas with the other 1,800+ people interested in becoming more self-reliant.
- Join the **OSR Academy Chat** Facebook group (befriend [Jesse Fisher](#) and message him so he can add you). This group is where current shareholders (and those interested in possibly becoming shareholders) can network, share ideas, ask questions, and get to know each other.
- Visit our website, [Riverbed-Ranch.com](#),
- Read through the [Q&A section of the Academy's website](#), and/or
- Get your questions answered (and hear what others are asking about) during our live [Q&A Zoom calls](#) on many Wednesday nights at 8pm Mountain Time.

Obligations

Each shareholder agrees to build the following within 3 years:

- A passive solar home, of at least 600 square feet, that requires minimal energy to heat or cool. We recommend at least 800 square feet of living space.
- Shop or Barn for animals and/or storage (no minimum size)
- Greenhouse, minimum 600 square feet, 1,200 recommended.
- Garden/orchard
- 6" well with 2 horse power pump with 400' of lift.
- County-approved septic system.

Each prospective shareholder is also required to submit a general (one-page) plan for funding the above build-out before the shareholder agreement is approved. The Utah OSR Land Cooperative is an agricultural co-op organized under Title 3 of the Utah Code. So, your 2 acre lot needs to be agriculturally productive – producing at least \$1,000 of goods every census year. Two ways to accomplish that:

1. Owner/Operator makes the land productive, or
2. You own, but someone else operates.

You don't have to live on your land, it just needs to be agriculturally productive.

Go Deeper

1. *Register for a tour!* That's done here at [EventBrite.com](https://www.eventbrite.com):
2. Have you read the [FAQ section](#) on the AcademyOSR.com website yet?
3. And if you love diving into the gory details, here's the [Co-op's Bylaws](#)

How to Join

- **Review the Shareholder Agreement** linked to at the very bottom of this web page: <http://bit.ly/OSR-Agreement> (the capitalization matters)
- **Create a general Transition Plan** (1-page) including time frames and how you will fund the initial building out of your homestead. It would be wise to include your "Plan B", in case you lose your current employment. (Don't over-think this, it's just to show you've thought through how you will transition to living at Riverbed Ranch, and, the assets you can bring to bear in building out your homestead.)

Note: We now recommend, (not require) that new members plan to get their infrastructure in place within a few months of joining, that includes your solar, septic, and water systems, along with a greenhouse. This puts you in the position of being able to produce food ASAP. Between your share and the infrastructure, that'll cost around \$100,000.

- **Write up your “Self-Reliance Journey”** (No more than one page). What have you done in your life that demonstrates your commitment to self-reliance? Include any experience (or training) you have in homesteading, animal husbandry, farming or gardening, solar power, homeschooling, canning, etc., etc.
- **Contact the Utah OSR Land Co-op** (801-494-1849) for an appointment with an OSR Qualifying Representative to review your application and to pay for your share.
- **Pick your lot** – some do so strategically, others walk around until one “speaks” to them. Here's the most recent [Riverbed Ranch lot map](#).

Testimonials From Residents

“Riverbed Ranch is peaceful and the neighbors are amazing!” - Jill Cleaver, from Delta, Utah.

“We are excited to be part of Riverbed Ranch. It's great to be around like minded people who are looking to become self reliant and live a more simple life. Everyone seems to be friendly and willing to help one another.” - Clint Astle, from Riverton, Utah.

“Incredible project supported by incredible people. There is real potential to build and learn much about communities and self-reliance.” - Eric Hansen, from Draper, Utah.

“Utah OSR is a community of people that are amazing. They truly embody the pioneer spirit, in deed and in attitude.” - Laura McDade, from Las Vegas, NV.

“I am grateful to the Organizers of this community. I feel it is a long term solution to society's big problems. Despite the many challenges, my family and I love it out here.” - Jonathan Olson, from Orem, UT.

Important Note

On rare occasions, people join our co-op with the intent of modifying our plan to fit their budget or values. Please don't do that; it causes drama that detracts from our progress. If you believe you have a better idea than ours, we invite you to go implement that instead of joining us. We have a proven plan, and we're implementing that plan. If that plan works for you, wonderful! We'd love to have you join in the adventure!

NOTE: The accompanying document from the USDA describes how co-ops are governed. Cooperatives are not direct democracies (where everyone votes on every issue). They are governed by an elected board of directors.

RIVERBED RANCH

Utah OSR Land Cooperative

Parcel & Lot layout

Lot Selection is based on one's share number or first come first served. Lot prices are based on size.

All lots regardless of size have only one vote. Each lot ownership requires a separate Membership Agreement. This means that each lot is to be built out as required in the Membership Agreement.

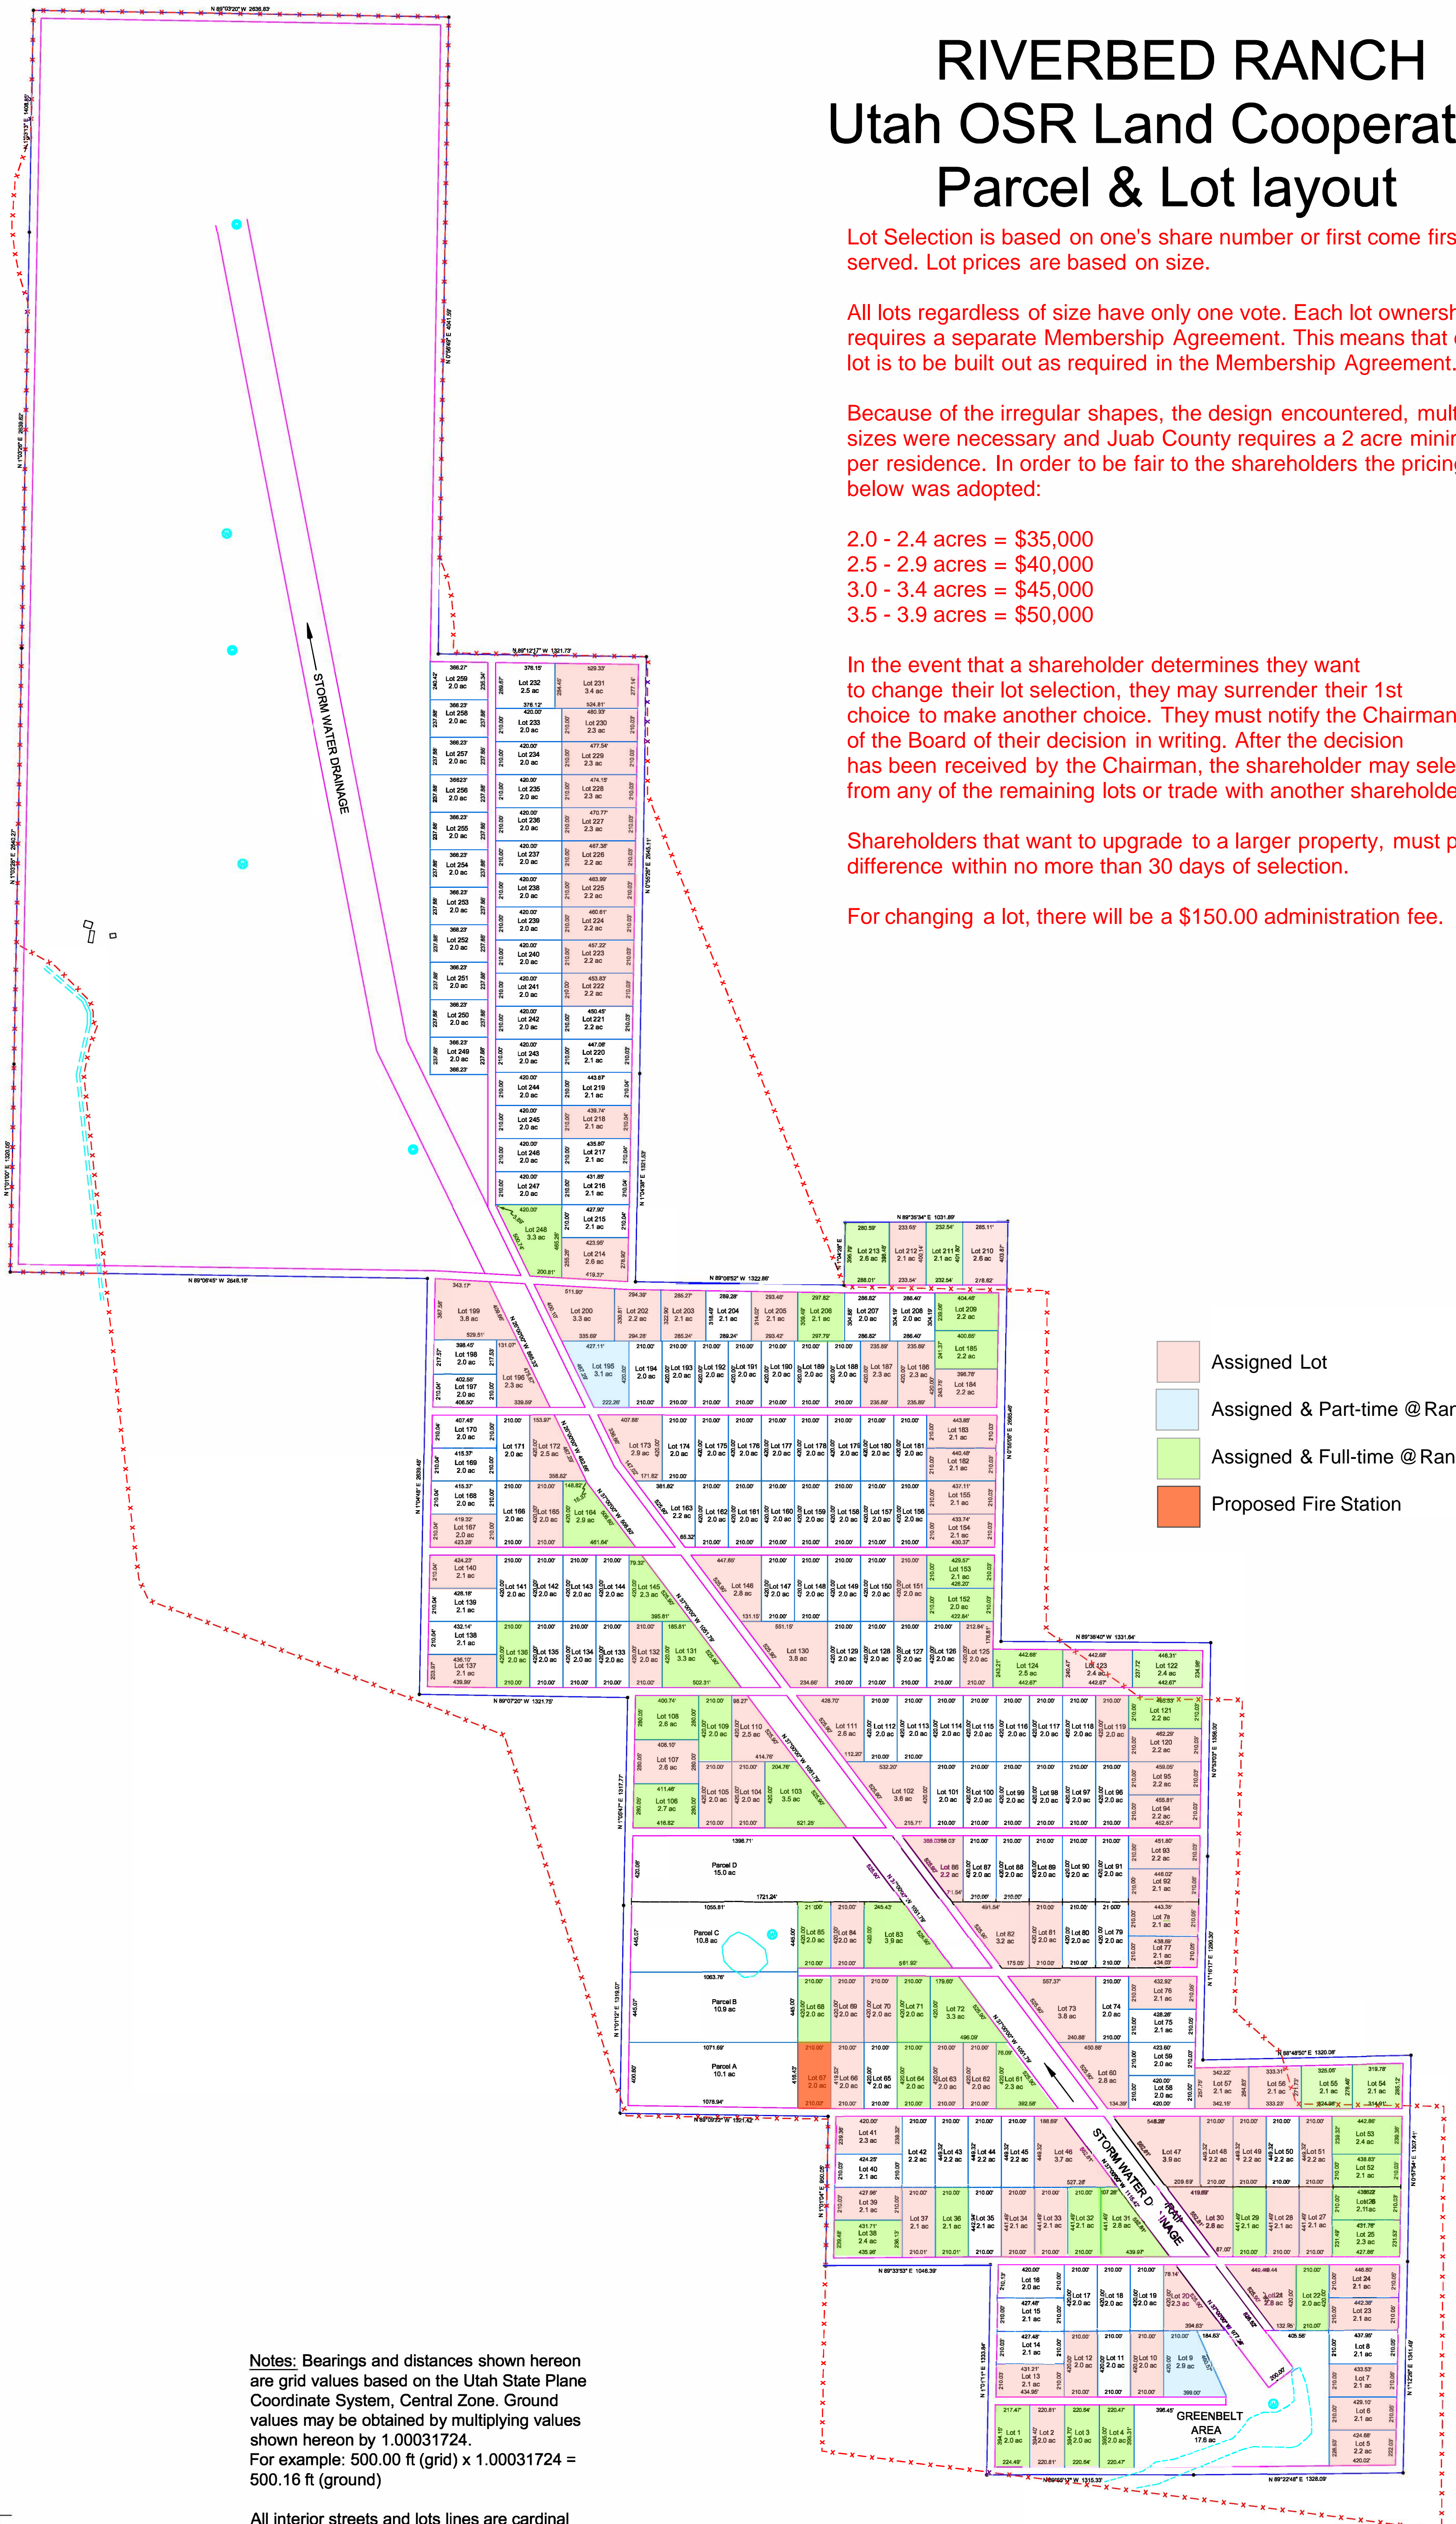

Because of the irregular shapes, the design encountered, multiple sizes were necessary and Juab County requires a 2 acre minimum per residence. In order to be fair to the shareholders the pricing below was adopted:

- 2.0 - 2.4 acres = \$35,000
- 2.5 - 2.9 acres = \$40,000
- 3.0 - 3.4 acres = \$45,000
- 3.5 - 3.9 acres = \$50,000

In the event that a shareholder determines they want to change their lot selection, they may surrender their 1st choice to make another choice. They must notify the Chairman of the Board of their decision in writing. After the decision has been received by the Chairman, the shareholder may select from any of the remaining lots or trade with another shareholder.

Shareholders that want to upgrade to a larger property, must pay the difference within no more than 30 days of selection.

For changing a lot, there will be a \$150.00 administration fee.

Understanding Cooperatives:

Who Runs the Cooperative Business? Board of Directors

Cooperative Information Report 45, Section 5

**United States
Department of
Agriculture
Rural Development**

Rural Business
and Cooperative
Service

October 1994

When you think about an opera, there are several key elements you need for a successful performance — the conductor, the musicians, a score, and the staging. These elements work together to make it happen — the conductor serves as the guider; the musicians are the performers; the score is the composition each person follows; and the staging is the process of putting it all together.

Cooperatives, as a form of business owned and controlled by the people who use it, are the same as an opera in that they, too, have several important elements needed to be successful. The most essential one is the people:

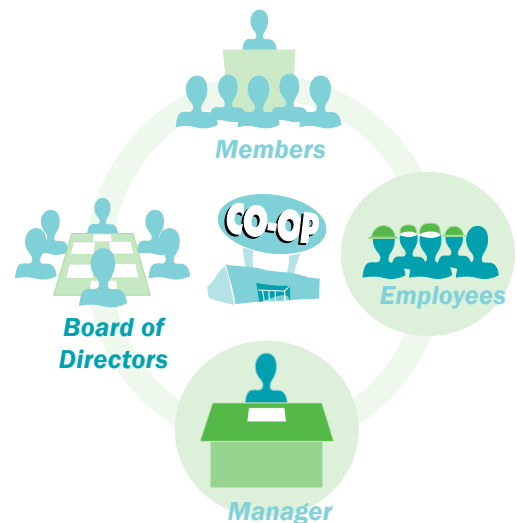

- ◆ Members, as the owner-users;
- ◆ Board of Directors, as the policymaking body;
- ◆ Hired Management, as the supervisor; and
- ◆ Employees, as the work force.

Each has specific roles and responsibilities in the overall operation of a cooperative.

Cooperative Management

Management of a cooperative is often incorrectly thought of as including only the hired manager and his key staff. This is far from the truth. Cooperative management should be regarded as a team consisting of four elements — members (owners), board of directors (elected), the manager (hired), and other responsible employees (paid). Each part of the team has its own distinctive duties and responsibilities for performing management functions in a cooperative. This allows them definite, reserved rights in the ownership and control of the business. These important rights give them the privilege of taking an active part in the management of the business. To be effective, each must exercise these rights; otherwise they will have no voice in management.

Successful management of a cooperative, therefore, is based on intelligent and active cooperation of the members with the board and with the manager/employees, each group shouldering its own responsibilities to the best of its ability.

.....
**The board of directors
occupy a key position
between members and
hired management.**
.....

Duties and Responsibilities of the Board of Directors

This section specifically discusses the responsibilities of the board of directors. (Section 4 describes the responsibilities of members, while Section 6 discusses responsibilities of management/employees.)

A cooperative is a user-owned and user-controlled business in which benefits are received in proportion to use. But it is not possible for member-owners to directly make all cooperative decisions. That control is preserved by members electing directors to represent them in much of the operation of the cooperative.

The board of directors occupy a key position between members and hired management. They represent the members as users of the cooperative's services, and consequently must be informed about the needs and directions of the members. The board must also remember that the cooperative functions for the benefit of those members.

Acting as a group, the primary responsibilities of the directors are to employ the manager, establish operating policies, and direct the cooperative toward its overall objectives.

In discussing the roles of directors, those that reflect an obligation on the part of the individual person are listed as duties. Those that require board members to act collectively are listed as responsibilities.

Duties

- 1.** Become familiar with the articles of incorporation and bylaws of the cooperative and conduct the business in accordance with their provisions.
- 2.** Attend regular and special meetings of the board.

- 3.** Understand the terms of all contracts into which the cooperative has entered by authority of the board — leases, loan agreements, membership and marketing agreements, supply and other contracts, etc.
- 4.** Be familiar with the State law under which the cooperative was incorporated.
- 5.** Understand the general legal responsibilities of serving on a board of directors.
- 6.** Be responsive to new ideas and changes that are in the best interest of meeting member needs.
- 7.** Commit to participate in training programs to better understand the cooperative's operations, and a director's role in it.

Responsibilities

In addition to the general duties and powers of directors as set out in the association's articles of incorporation and bylaws, the following responsibilities are particularly important:

- 1.** Hire a competent manager; determine the salary, outline the duties and authority of the position, and formally review his/her performance at least annually.
- 2.** Adopt broad, general policies to guide the manager and make them a part of the minutes. They should include such items as credit to patrons, source and limits of supply inventories, general personnel regulations, etc. It is the manager's job, rather than that of the board as a whole or as individual members, to make the detailed decisions on how to implement the board's policies. Once established, the board needs to monitor and review policies annually and make changes when necessary. Remember, board members make policy decisions. They should not assume

responsibilities that are clearly part of day-to-day operations.

3. Develop and adopt long-range business strategies.

4. Require written monthly financial reports and operating statements for board meetings in order to be informed of adverse as well as favorable operations.

5. Direct the manager to prepare before the close of each year an operating budget for the next fiscal year for board approval. This budget should estimate the volume of sales and gross income of various items to be handled, the expenses by account classifications, and the net income expected. This constitutes necessary forward planning on the part of the board and management. The budget should be reviewed at intervals throughout the year to determine the trends of the business.

6. Employ a qualified auditor to make an independent audit at least once each year to determine the accuracy of the financial records. This audit, reported directly to the board, is used to evaluate the effectiveness of the policies and budget, performance of the manager, and insight into the effect of past decisions and the need for new ones. An audit is the primary method the board uses to report the financial condition of the cooperative to its members.

7. With the aid of the manager, plan and conduct the annual meeting to keep the membership informed about the status of their business, including operations, finances, and policies.

8. Determine the patronage refund allocation, weighing legal requirements against the need for reinvesting refunds to provide money to retire old equities and still meet current capital needs.

9. Obtain competent legal counsel.

10. Keep a complete record of the board's actions.

A cooperative director should not expect to be granted special favors from the manager or employees and does not have the following responsibilities:

1. To act independently on matters that should be decided by the entire board.

2. Be a representative of special interests, factions, or political entities. He/she was elected to direct the business activities of the cooperative, not serve as a representative of these groups.

Board Size

Incorporation law normally sets the minimum number of cooperative members serving on the board of directors. Most have an odd number such as five, seven, or nine. Extremely large boards can be cumbersome, slow, and expensive, while smaller boards can be more efficient and effective. Generally, small boards will have more frequent and effective meetings.

Board Officers

The board officers are usually elected from within the board members, frequently at a re-organization meeting after the annual meeting. Each officer has specific duties as detailed in the cooperative's bylaws.

Board officers are:

◆ The president who presides at all meetings, carries out the members' wishes, and watches over the association's affairs linking communication between hired management and members;

◆ The vice president who, in the absence or disability of the president, performs the duties of the president;

◆ The secretary who keeps a complete record of all meetings of the board of directors and general membership and also is the official custodian of the cooperative's seal, bylaws, and membership records;

.....
Each officer has specific duties as detailed in the cooperative's bylaws.
.....

Board of Directors

.....
In a cooperative, the board is responsible to its members as users rather than to investors whose first objective is to maximize profits.

□ The treasurer who keeps watch over the bookkeeping and accounts to ensure accuracy and proper handling and also is responsible for presenting periodic financial reports.

Selection of Board Members

At most cooperatives, before the annual meeting, the president of the board of directors appoints a nominating committee to develop a slate of candidates for election to the board. This committee nominates cooperative members they feel can direct their cooperative in meeting its overall objectives and improving its operations. In serving, they often look for guidelines to use in selecting the right individual. The following are some of the important qualifications to consider.

Is the candidate?

- ◆ Objective, willing, and anxious to learn;
- ◆ Accepted by the members for having good judgment and business sense;
- ◆ Successful in his/her own business operation;
- ◆ A loyal, participating member of the cooperative;
- ◆ Willing to take the time necessary to prepare for, attend, and take an active part in board meetings;
- ◆ Able to protect highly sensitive, confidential material, that if disclosed could damage the cooperative, but still be willing to give, and even insist on giving, members all possible information;

- ◆ Knowledgeable about cooperatives and the job of a director, including listening to members;
- ◆ Willing to accept the responsibilities and obligations of a director;
- ◆ Someone who will work well with others as a team, and support majority decisions, even if not agreeing with them;
- ◆ Open-minded in considering issues;
- ◆ Representative of the goals and direction of the members;
- ◆ Recognized as a community leader; and
- ◆ Honest and fair.

If the candidate is seeking the job of director to gain a personal advantage or favors for friends, it is questionable whether that candidate should be elected. Electing someone to the board to gain that person's patronage is not in the long-term interest of the cooperative.

Conclusion

The ultimate control of any corporation is legally in the hands of the board of directors. In a cooperative, however, the board is responsible to its members as users rather than to investors whose first objective is to maximize profits. Taking the time to listen to member-users, learning the issues, understanding the responsibilities of directors and how their role differs from other key people, and making decisions based on what is in the best interests of the membership, will allow the cooperative director to serve members effectively. ■
