Tule Creek Horse Ranch

Incredibly unique horse property featuring completely remodeled residence, brand new indoor riding arena, custom stall barn, large shop, pipe fencing and additional updated structures located on approximately 11 acres in a scenic area of Briscoe County, Texas. For the avid horseman, this property provides an absolute haven to help them pursue any discipline they desire. In addition, with its easy access just off State Highway 207 and fiber-optic high-speed internet, this property would be ideal for the telecommuter who wants to enjoy a peaceful, rural lifestyle while living near great recreational destinations such as: Lake Mackenzie, Palo Duro State Park, or Caprock Canyons State Park. Nestled near the historic Tule Canyon, this property is about 70 miles from Amarillo and 90 miles from Lubbock, Texas.

Ranch Style Home

Over the past decade, the property has undergone numerous renovations and enhancements. The approximately 2,664 square foot home offers 3 bedrooms, 2.5 bathrooms and displays upgrades and additions around every turn. The home has been updated with new windows and exterior doors, custom garage doors and an additional carport. The sunroom addition on the north end of the home is surrounded by large feature windows on three sides and provides a picturesque view of open pasture. In addition to the three bedrooms, there is a sizable basement with a great deal of storage space that could be utilized as a fourth bedroom. There is also supplemental storage in the attic with drop-down access in the garage. Every bathroom has been renovated with the master bathroom being highlighted by a free-standing copper tub and walk-in shower. A state-approved septic system has been installed to give future homeowners peace of mind.

The current owners have a great eye for detail and have brought this Southwestern meets Ranch Style home to life. Unique, one of a kind, artistic touches are sprinkled throughout the residence. Beautiful mesquite flooring and authentic Saltillo tile encompass the floors of the home. The living room has a rock fireplace and hand-hewn wood beams, adding to the genuine charm. The back door leads to a recently added outdoor kitchen and patio with a rock fireplace; perfect for entertaining and secluded evenings by the fire.

Water Features

This property has its own well and as a bonus, it can be serviced by either an electric submersible pump or windmill. The well is tied into an above ground storage tank adorned with a painted western mural.

Horse Barn

Continuing out the backdoor and across the back patio, is a custom, five stall, horse barn with rock siding and attached runs. The barn is equipped with a wash bay, large, climate-controlled tack room, bathroom/laundry room with its own septic tank and automatic waterers. The downspouts from the West side of the roof feed into underground, water-collection storage tanks for use in wetting down the arenas.

Indoor Arena • Working Pens

Next to the stall barn, there is a brand new, 100x200 indoor riding arena complete with a roping chute and pipe and wood fencing. This facility has the most up-to-date electronic amenities such as, three “Big Ass Fans,” LED lights throughout, and automatic door openers on three of the four doors. In addition, there is a stripping chute and a set of working pens just outside the arena, as well as a 150' round pen. There is a two-stall, lean-to barn complete with feed room and several pipe enclosed paddocks all with heated automatic waterers making this property move-in ready for any horse enthusiast.

Outbuildings

On the West side of the property, there is a 60x40 shop with heavy-duty built-in shelving, next to a Quonset hut which also has ample storage.

Both structures have been recently equipped with automatic door openers and LED lighting inside.

There is also a great workshop or office space that has been outfitted with new glass block windows. The exterior walls were recently reinforced, a new roof added, and the outside refinished in stucco. The shop is cooled by a window AC unit and heated by propane.

A small stone building that is on the property has a bit of interesting history to it. It is known in the area that it was once used as a stagecoach stop in the late 1800's. The previous owners admired this building and found it necessary to renovate the structure to maintain its history. Next to this structure lies a sizable greenhouse with a garden shed.

A custom heavy-duty front gate secures the main entrance and is accessed by a solar-powered keypad or remote control. A vast, front-yard fence is the perfect area to give small dogs a place to roam all the while keeping predators out

Price

\$925,000

Remarks

This one-of-a-kind property is ready for its new owner to move in and make it their own. Come enjoy a slower, peaceful pace while having ample opportunities for recreation and a rural lifestyle.
