EXEMPT WELLS

A. An exempt well includes the following (please circle applicable exemption):

- 1. Domestic and Livestock wells as follows:
  - a) A domestic water well drilled, equipped or completed so that it is incapable of producing more than 25,000 gallons per day.
  - b) A domestic water well used to supply the needs of 10 or fewer households if each of the households is for the well owner, a person related to the well owner within the second degree of consanguinity, or an employee of the well owner.
  - c) A water well for watering or feeding livestock and poultry on a tract of land larger than 10 acres drilled, equipped or completed so that it is incapable of producing more than 25,000 gallons per day.
  - d) A well used solely for agricultural use or for agricultural and domestic use capable of producing more than 25,000 gallons per day if such well is registered with the District and the owner signs an agreement with the District agreeing that such well will not actually produce more than 25,000 gallons on any day. If such a well produces more than 25,000 gallons on any day, it must comply with the District's permitting requirements unless they are waived by the Board.
- 2. Texas Railroad Commission wells as follows:
  - a) A water well used solely to supply water for a rig that is actively engaged in drilling or exploration operations for an oil or gas well permitted by the Texas Railroad Commission provided the person holding the permit is responsible for drilling and operating the water well and it is located on the same lease or field associated with the drilling rig.
  - b) A water well permitted by the Railroad Commission of Texas under Chapter 134, Texas Natural Resources Code.

B. A well exempted under provisions A.2 above must apply for a permit and comply with all District rules if:

- 1. The purpose of the well is no longer solely to supply water for a rig that is actively engaged in drilling or exploration operations for an oil or gas well permitted by the Railroad Commission of Texas; or
- 2. The withdrawals are no longer necessary for mining activities or are greater than the amount necessary for mining activities specified in the permit issued by the Railroad Commission of Texas under Chapter 134, Natural Resources Code.

C. An entity holding a permit issued by the Railroad Commission of Texas under Chapter 134, Natural Resources Code, that authorized the drilling of a water well shall report monthly to the District:

- 1. The total amount of water withdrawn during the month;
- 2. The quantity of water necessary for mining activities; and
- 3. The quantity of water withdrawn for other purposes.

D. A water well exempted under any of the provisions above shall be:

- 1. Registered in accordance with rules promulgated by the District; and
- 2. Equipped and maintained so as to conform to the District's rules requiring installation of casing, pipe, and fittings to prevent the escape of groundwater from a groundwater reservoir to any reservoir not containing groundwater and to prevent the pollution or harmful alteration of the character of the water in any groundwater reservoir.
